# Welcome Address

After years of enduring the unprecedented long tunnel of the pandemic, we have learned to adapt and live in the "New Normal" . Re-opening the school in this New Normal feels like the time when English Fella was founded in 2006, when a lot of preparations were needed to start a new journey. Despite this, English Fella, after being able to follow all the legal procedures and submit all the necessary requirements, became the first language school permitted by the Philippine government to officially re-open after the pandemic, once again proving that English Fella is the most prestigious language school in the Philippines.

In line with this, I would like to express my sincere thanks to the students, employees and many others who joined us in this milestone. Pursuing and creating new values in addition to the ones that have been created and maintained is challenging, but together, we can accomplish anything. I am grateful that my employees are constantly striving to create a high level of professionalism through strong passion and dedication to their work.

As always, we will do our best to encourage our students and help them achieve their goals in life. Thus, to ensure that we always provide the best service to our students, we provide a systematic and comprehensive education system to help them in their studies.

## "FIRST AND BEST"

In order to realize the school mission of "Providing the Best Experience from the Beginning", the employees of English Fella always do their best with this mission in mind.

With English Fella as your friend and companion in your journey to achieving your dreams, you will have an enjoyable, clearer path towards your destination.

We are so eager to take this journey with you.

All the Best,
